The President of United States  
Bill Clinton  
White House  
1600 Pennsylvania Avenue  
Washington, D.C. 20500

OFFICE OF THE EXECUTIVE  
SECRETARY AT. 080A  
1999 OCT -14 P 12:5  
COPIES:

Dear President Clinton,

I am deeply disturbed by the recent revelation that genetically altered corn Bt corn is lethal to monarch caterpillars. This is yet another "carry in the coal mine". The short-term rush to maximize profits for our agri-business factories may pose serious long-term threats to the well being of our environment. There is simply no easy short-term way of knowing all the possible impacts of genetically engineered plants.

I urge you to support strong measures to carefully regulate the genetic engineering of plants and **an outright ban on Bt corn.** All genetically engineered products should be **labeled as such.** The public has a right to know and as consumers be able to choose to consume only non-genetically altered products.

Sincerely,

Christopher Wren
